

Advantage™

Ultrasound Tissue Micking Phantom

Delivering Optimal
Phantom Images

Every Time

Long-lasting: Built with materials suitable for up to 10 years of continual use, the Advantage™ Phantom is meant for long-term application — with no loss in image quality

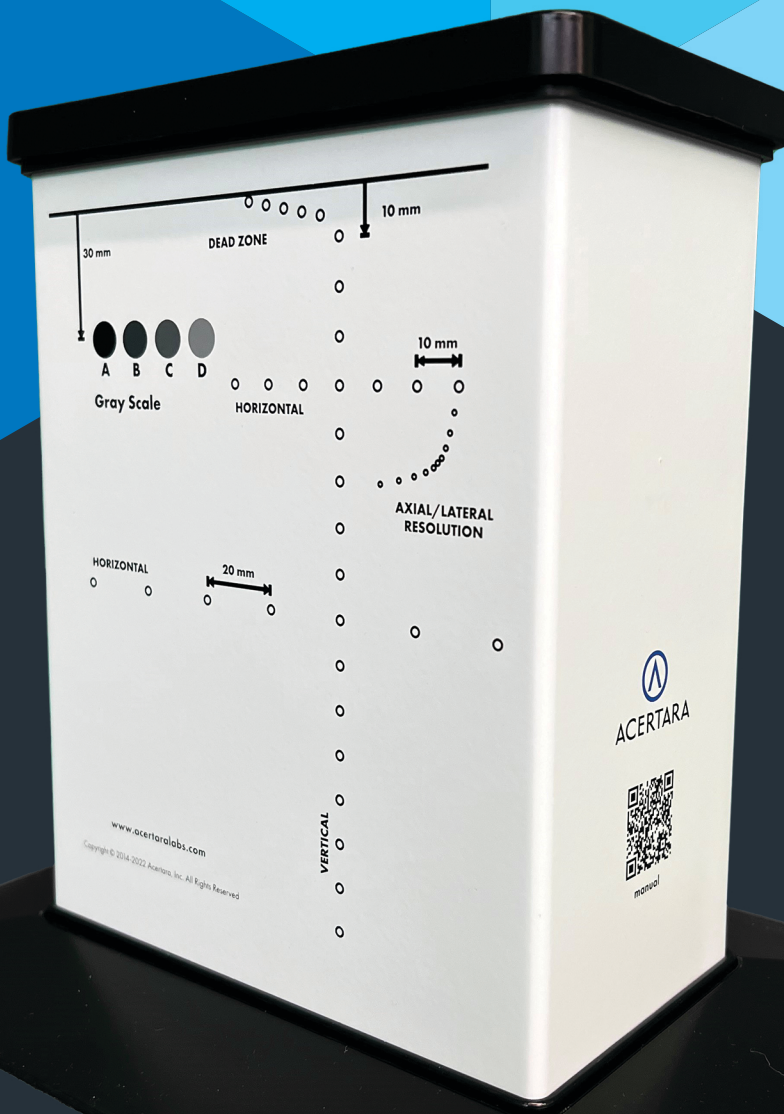

Reliable: Ultrasound users can easily verify the functionality of their equipment.

Lightweight: With a low physical weight of less than 5.5lbs/2.5kg, a small footprint, and a budget friendly price point, Advantage is the ideal QA phantom for the busy ultrasound lab.

Ready to go: Advantage requires no calibration or other downtime maintenance.

Key Features

Acoustic Properties

- + Speed of sound: 1500 ± 50 m/s
- + Attenuation: 0.6 ± 0.15 dB/cm/MHz between 2 and 10 MHz (ambient temperature $21 \pm 3^\circ\text{C}$)

Image Quality

- + Bright, easy-to-see targets with uniform homogenous backscatter field.

Dual Scan

- + New dual scan surface design to easily accommodate linear, sector, endoscopic probes and transesophageal (TEE) probes.
